\$1,000 Month Alimony Given 'Kidnaped' Wife

NEW ORLEANS, Oct. 13.-(P)-NEW ORLEANS, Oct. 13.—(P)—Mrs. George M. Cox, whose husband recently offered \$25,000 for her safe return after he reported she had been kidnaped, was awarded \$1,000 a month alimony in civic district court here today, pending disposition of her petition for a divorce.

Cox, shipbuilder and former manufacturers' agent, testified that although he is worth "more than \$2,000,000," he cannot place his hands on a dollar in cash because Mrs. Cox "cleaned him out" before filing suit for divorce.

Mrs. Cox admitted on the stand that she had taken available stocks and securities several weeks ago when she disappeared from her home and had converted them into \$6,200 of which she had only \$900 left.

LOWER RAIL RATES TO WEST COAST SEEN

CHICAGO, Oct. 13 .- (A)-Passenger rates of 2 cents a mile to and from the Pacific coast within ninelimits were announced today by the Western Passenger Associawill become effective Decem-

She denied she was ill in bed four days and was away from work at her studio five days.

She denied Bartlett had ever told her of any plan to gain revenge on Warburton, except to say that he would like to "sock" the Englishman.

The trouble started, she said, at the Beverly Hills party, when Warburton got into an argument with someone and strode off in a huff from her home, after she had told him to "calm down."

Miss White said she refused to leave the party with Warburton and that when she went home some hours later, he met her at the door and "smacked" her in the face.

The blow that started the beating she constantly described in her testimony as a "smack," but at one point she said: "Yes, sir, it was pretty brutal."

She said she wore dark glasses in efforts to hide her injuries, but Boston Money Transfer

viewed with equanimity a 20-minute
traffic jam in the downtown streets
today. While motorists punished
their horns and voiced their views
in bitter adjectives, the cops looked
on with unwonted serenity while a
huge delivery van squarely blocked
the street outside the federal reserve bank and two truckmen trundled heavy crates into the institution. Only after it was all over did po-lice explain their complacency. The traffic jam was fully premeditated, they said. The crates contained a large money transfer and the block-ade of motorists was created pur-posely as a barrier through which no bandit machine, if one were pres-ent, could hope to speed to safety.

She said she wore dark glasses in efforts to hide her injuries, but that Bartlett, who she had known five years, finally drew the story from her. She was reticent, she said, because she did not want Bartlett to know that she had been going about with Warburton. She said she had known the latter only a short time, but she had not seen Bartlett for

WASHINGTON, Oct. 13.—(AP)—The text of President Roosevelt's speech tonight to the third annual women's conference on current prob-

sires for expansion and domination in their minds or in their hearts that in a day or a year, and education is threats to world peace lie. And, finally, it seems clear to me that it is only through constant education and the stressing of the ideals of peace the stressing of the ideals of peace.

The other thought that I want to express to you is even more definitely along the line of education. It is true, unfortunately, that the economic depression has left its serious mark not only on the science and practice of education, but also on the very lives of many hundreds of thousands of children who are destined to become our future citizens.

Every one of us has sought to reduce the cost of government. Every your help.

I am glad to have the opportunity of greeting those who are attending the third annual women's conference on current problems.

I note that the subject of this conference is "This Crisis in History,"

short space of 10 minutes will scarcely allow me to do more than congratulate you on your courage in seeking fully to discuss "This Crisis in History" in the space of two days.

May I, however, touch very briefly on two matters which are much in my miad—two problems which can be helped by public interest and public discussion.

Me have today, for example, a large surplus of so-called qualified

belped by public interest and public discussion.

One of them relates to the peace of the world. The danger to world peace certainly does not come from the United States of America. As a nation, we are overwhelmingly against engaging in war. As a nation we are seeking no additional territory at the expense of our neighbors.

The United States does not seek to annex Canada or any part thereof, to annex Canada or any part thereof, to annex Canada or any part thereof, to annex Mexico or any part thereof, to the inhabitants of the world begin to understand that the United States is opposed to war.

I will go one step further in saying that the very great majority of the inhabitants of the world feel the same as we do about territorial expansion or getting rich or powerful at the expense of other in eighbors. It is only in the case of such people in the world as still have imperialistic desires for expansion and domination in their minds or in their hearts that the very great minds of the world begin to understand that the expense of their neighbors. It is only in the case of such people in the world as still have imperialistic desires for expansion and domination in their minds or in their hearts that the very great mind to a large expense of their neighbors.

The main point is that the very great majority of the inhabitants of the world seed to make infinitely better the same as we do about territorial expansion or getting rich or powerful at the expense of their neighbors. It is only in the case of such people in the world as still have imperialistic desires for expansion and domination in their minds or in their hearts that the coming generation must play in working out too many description and the plants as a much an economic waste as well as a possible and the plants as the deutation.

Even today, for example, a large surplus of deutation.

Even today we are turning out too many to too many may the thereof, and the capacity of railroads to use to description of their capacity of railroads to use to detail. The

'13th' Unlucky for School Children, Deprived of Recess To View Macon

Some people may think that Friday with it. Friday morning Dowman came the thirteenth isn't unlucky—but you can't tell thousands of Atlanta school children that it is not.

The Macon, huge navy dirigible enroute to California, failed to pass over the city Friday as scheduled and the children, who had been promised by school officials that they might go outside classrooms to see it, were disappointed.

Albert Rogers, director of the Georgia bicentennial commission, had arranged with school superintendents for a recess from studies for the pils in order for them to watch the giant Macon make its first bow to the south. But the combination of Friday and 13 proved too much even for the mighty Macon. It was forced to take a different course to Sunnyvale, Cal., because of weather conditions in this vicinity.

Rogers Disappointed.

And Mr. Rogers himself is another who must believe Friday was unlucky. For weeks he had dickered with the court of the recorder was a bit more drasses.

Rogers Disappointed.

And Mr. Rogers himself is another who must believe Friday was unlucky. For weeks he had dickered with navy officials and with Senator Russell and Congressman Vinson for permission to have the Macon fly over Atlanta. Thursday night he thought his ambition on behalf of the bicentennial commission and the residents of Atlanta had been realized. But how could he know that Commander Dressel would choose Friday the thirteenth to attempt to fly here?

Three fingers on the left hand of Walter Dowman, an employe of the Atlanta Printing & Lithographing Company on Alabama street, were cut off Friday, and he can't help but feel that the day had semething to defer the sum of the courtroom there Eaton was brought as a bit more drastic the second time and gave Eaton as sured the judge he would leave town. Eaton assured the judge he would of just that the day in the same courtroom. Thirteen and Friday the thirteenth to attempt to fly here?

Three recorder was a bit more drastic the second time and gave Eaton as sured the judge he would of just that the day in the same time have the definite objective in every state and in every school distinct of restoring the useful functions of education at least to their pre-despression level."

"We have today, for example,' he added. "a large surplus of so-called qualified teachers—men and women who even if we had full prosperity, would and probably should be unable to find work in the field of education and the recidence and gave him an additional 30 days. You just try telling Eaton bad luck doesn't come on Friday the thirteenth.

And another fellow who'll tell you as just as much an economic waste the form and surple state and friday the same time and gave. Other Ills, Pediatricians Are Told

Hay fever sufferers have one consolation—they are rarely ill from any to ther disease.

Dr. Horton Casparis, professor of pediatrics at Vanderbilt University, Nashville, Tenn... told the Georgia Pediatric Society that not only are infected they recover more quickly.

Dr. Casparis said hay fever, exzema, hives and other allergic aliments are inherited in most cases. If the mother has one of the manifestations, half the children will inherit the tendency; if both parents, all of the children will be affected.

Medicine has yet to discover, he said, why the same irritant will produce a sthma in one child and hay fever in another.

Irritants are divided into four classes, food, epidemic, pollen and consulted the produce as the produce as thma in one child and hay fever in another.

McIntosh Expresses Surprise.

In his letter to the governor McIntosh expressed surprise that the chief executive, with whom he had conferred on the situation last Saturday, had asked his resignation since the governor had told him he would keep the matter open until McIntosh returned from Washington.

"I have found no little pleasure in giving time and thought to the board of control," McIntosh wrote, "but my chief regret just now is that the board is losing the services of its chairman, Mr. Lucas, who has been extremely generous in rendering highly efficient service to the state, with no pecuniary compensation whatsonesses. no pecuniary compensation whatso-ever for his services. Plays at Paramount All Atlanta is offered a chance to see Johnny Mack Brown, formerly of Atlanta and star halfback on the championship Alabama team, in what is rated by critics as the greatest of football romances, "Saturday's Millions," which opens today at the Paramount theater. In addition to its timeliness, "Saturday's Millions" has many features which make it a film drama of unusual interest.

many features which make it a film drama of unusual interest. The story is filled with interesting situation, and its swiftly moving action is interpreted by a cast of unusual excellence. Robert Young, Leila Hyams, Johnny Mack Brown, Andy Devine and Lucille Lund appear in featured roles. It is interesting to note, by the way, that this picture marks the screen debut of Miss Lund, the recently crowned All-American girl." Also Ernie Nevers, Erny Pickert and other All-American football stars appear in action scenes.

"Saturday's Millions" breathes the very spirit of football and brings to the screen a rousing gridiron battle which has probably never been excelled for clarity and exciting action. As an added treat this week Bob Hess at the Wurlitzer has arranged a special program entitled "Footbaliitis." Those popular comedians, Eugene Pallette and Walter Catlette, are seen in a side-splitting comedy, are seen in a side-splitting comedy, "One Awful Night," and the ever-in-teresting Fox News completes an entertaining program.

She sings several songs in this production, all of which were written by a negro composer, and the style and swing of the music are perfectly suited to Miss West and to her picture. Wild music fits well in "I'm No Angel."

If you are a West fan, you'll see and hear plenty of her. Every wise line is the personal property of Miss West and she handles them in typical West fashion, one which, as we remember, landed her in Chicago and New York jails a few years ago. Cary Grant and several other rather capable actors are in a cast made up mostly of men who fall for Mae in the big way.

Jimmy Beers plays the "Last Round-up" at the organ and Guy Lombardo with his band renders "Rhumba Rhythm." Other shorts and features complete the bill.

Jean Harlow Real Star

In Role of Comedienne "Bombshell" is a strange and re-freshing combination of broad bur-lesque and finely drawn satire worked into a hectic plot and presented at a breakneck pace by a highly competent cast. This feature at the Grand gives cast. This feature at the Grand gives Jean Harlow her first opportunity at almost unadulterated comedy and, be-lieve us, the platinum-haired menace is amazingly competent in this diffi-

is amazingly competent in this diffi-cult work.

Heretofore Miss Harlow has been mostly sex with a big cap "S" but here her allure is merely background to some splendid comedy. Not that you aren't given plenty of views of the justly celebrated Harlow face and figger but they are not the whole figger but they are not the whole show, unless you just must have it

that way.

Lola Burns is a common but de-Lola Burns is a common but de-cent enough beauty who has become a big name in Hollywood. She lives in a mad world peopled by a tippling father, worthless brother, chiseling secretary, shouting directors, gigolo noblemen and Space Hanlon, ace pub-licity man. The rest are bad enough but Space is her very special cross. He makes her a lurid character. He gigls her marquis for headlines. She He makes her a lurid character. He jails her marquis for headlines. She tries to adopt a baby and he breaks this up by staging a free-for-all fight in her home. More headlines. Finally she quits and Space lures her back by an elaborate plot involving a spurious Boston family.

There is a great deal of sound and fury here and although it signifies nothing it certainly is grand fun for those who like theirs with plenty of gusto. The lines are racy through-

gusto. The lines are racy throughout and more than a little risque at many points.
Miss Harlow's intelligent interpre

tation is ably seconded by Lee Tracy who is his customary go-getting self as Space. Frank Morgan overdoes it a bit as the father while Una Merkel when attorneys representing the state board are scheduled to meet with counsel of the national public works administration to draw up legal plans for the solution of the problem.

'Dinner at Eight' Ends Erlanger Run Today

With matinee and night performances today the road-show presentation of the great Metro-Goldwyn-Mayer picture, "Dinner at Eight," will come to a close at the Erlanger theater. The matinee starts at 2:45 and the night performance at 8:45. With these two shows a highly successful week's engagement comes to an end. There are still a number of desirable seats available for both performances which may be secured at the box office after 10 o'clock. "Dinner at Eight" in many respects is the most remarkable screen production ever made. Its cast includes more genuine stars than any

production ever made. Its cast includes more genuine stars than any production previous, even exceeding "Grand Hotel" and "Rasputin." Marie Dressler, John Barrymore, Wallace Beery, Jean Harlow, Lee Tracy, Lionel Barrymore, Billie Burke, Madge Evans, Edmund Lowe are only a few of the great names of the screen found in the cast of this picture.

It is from the stage success of the same name, which was awarded the Pulitzer prize. The play was writ-ten by George S. Kaufman and Edna Ferber, while the picture was direct-ed by George Cukor.

"Do you know of any person who would subscribe to telephone service in Dublin if the rates were cut 33 1-3 per cent as you ask?" asked E. D. Smith, general counsel for the Southerns Bell.

"Well, I suppose I do, but I wouldn't like to name them," said Mayor Keen.

"Well, I suppose I do, but I wouldn't like to name them," said Mayor Keen.

The mayor said that prices of commodities had come down and other businesses were either losing money or just breaking even and that he thought the telephone company should "take its losses."

Chairman Jud P. Wilhoit announced that the recess until the week of October 23 was taken to give counsel for both sides an opportunity to study evidence and exhibits already introduced.

The Georgia Hotel Association pre-

study evidence and exhibits already introduced.

The Georgia Hotel Association presented testimony during the morning session of today's hearing. J. F. De Jarnette, manager of the Henry Grady hotel, said the rates for room telephones, if not abolished, should be "very small, since most of the service over these telephones is telephone business and not hotel business." He said his hotel paid \$458.95 monthly for telephone service in 1931, but had since reduced its bill by reducing the number of telephones.

J. D. Swagerty, representing the Atlanta Doctors' Exchange, said he had heard many physicians complain about the 50-cent monthly charge for extra listings in the telephone director. F. A. Schuyler, manager of the Tremont hotel here, said he had

Neither gods nor devils, they are scientific wonders that they will bring to Atlanta have seldom been witnessed save by physicians and technicians of the electrical world.

Saved by Microbes.

This story that follows is translated from the Pester Lloyd, the great journal appearing in Budapest, Dr. Wisehart is the English professor who recently had an extraordinary adventure with a burglar. Microbes saved way. Professor Wisehart was studymicroscopes. He heard a noise in the adjoining room. He paid no attention at first, but then suddenly looking up he saw a man standing near by with a drawn revolver in his hand. The professor remembered the stoicism of the ancients and quietly went back to his work, staring into a micro scope. The bandit came nearer and poked the professor in his side.

"What do you want, my friend? Please be careful with that revolver, for if by accident it should go off microbes will be released from these test tubes, which will kill you and

on't know what terrible disease."

The bandit lowered his revolver and his jaw dropped. He began to tremble. In his emotion he pushed a small glass off the table. It contained nothing but water, but as it spilled a few drops on the burglar's coat and shoes the professor exclaimed: shoes, the professor exclaimed: "Quick off with your clothes. Hot baths are rather relaxing, depressing. Cool baths are refreshing, stimulating.

But we must not confuse hydrotherapy, the use of baths in the treatment of illness, with cleanliness. A healthy individual washes his body for the sake of cleanliness, and not to soothe his "nerves."

Perhaps a compromise would be the logical solution of the problem. Instead of the funny contraptions traditionally installed in bathrooms, a kind of sunken pool should be built so that one could step down into the pool for a shower or lie and soak in the water if one preferred. The custom of having a shower stall and a tub in addition is as ridiculous as cutting a large hole in the does for

the old cat and a smaller hole for the kitten.

The correspondent grants the sanitary superiority of the shower bath over the tub bath. Yes, and some people prefer individual toothbrushes to toothbrushes provided for all our guests.

The record showed Couch was loaned \$300,000 on January 16, 1928, and that it was listed as unpaid up to December 31, 1931. Committee investigators said they understood it was still unpaid when Dillon, Read answered a questionnaire from the committee this summer.

Clark recalled that Attorney-General M. J. Yeomans was in the governor's office at the time of the call. He declined to elaborate on the visit to the capitol.

Reports from the capitol were that Clark had asked the governor to call in a special solicitor to investigate county affairs, and that Attorney-General Yeomans advised the governor that this could not be done unless the solicitor-general of the circuit is legally disqualified to act.

Although members of the grand jury declined to discuss what went on during the session, it was reported that "the county probe is over."

Many Have Cut Levy and Property Assessments, Figures Made Public by Harrison Show.

NEW YORK, Oct. 13.—(P)—Into the bitter mayoralty campaign was thrust today the name of Governor Herbert H. Lehman—attacked by Samuel Seabury, fusion strategist, and defended by Joseph V. McKee, independent democratic candidate.

Seabury, prosecutor of the legislative investigation which ended in resignation of Mayor James J. Walker, charged Governor Lehman had failed to correct evils disclosed by the inquiry and had neglected to take steps to bring to justice criminals who stole emergency relief funds.

"If we had had a governor of the state who was determined to enforce the law as it should have been enforced," said Seabury, "these criminals that stole a good part of \$10.000,000 (relief funds) would have been arraigned at the bar of criminal justice and some of them would now be in Sing Sing."

McKee replied:

"Judge Seabury is not a candidate, but let me say this: His attack on Governor Lehman is the key to the man's character and what he is trying to do in this campaign.

Surrendering to the authorities and collecting a bond is not so simple as it seems. It appears that the Burlack woman's bond was forfeited in 1932, but was reinstated by the court after it was pointed out that the woman's demurrer was pending in the supreme court at the time of the forfeiture. In the meantime, the cash was paid over to the solicitor-general by the sheriff and then went into the county treasurer's account. Now, to recover his money on the surrender of the defendant, McClean must get the tangle straightened out in the court. An old and honorable rivalry that began back in the gay nineties and survived a couple of wars, gets its annual airing at Grant field this afternoon when Auburn and Georgia Tech meet in their thirty-fifth game of football, starting at 2 o'clock. Mehre Wears Long Face as Team Takes Game Lightly

EN ROUTE CHAPEL HILL, N. C., WITH GEORGIA FOOTBALL TEAM, Oct. 13.—The Georgia Bulldogs came swarming aboard the Pullmans here tonight with very happy

It seemed a very cheerful occasion and this correspondent was beginning to glow with good fellowship and all that sort of thing when there appeared the very sad face of Mr. Harry Mehre, the head coach

The head coaches, before these football games, can look so very sad that I have been known to bust right out crying and sob all night in my Pullman cubicle and my shivering cuticle.

It was with difficulty that I choked back the sobs on sight of Mr. Mehre. It seems that the Bulldogs are taking the North Carolina game as a matter of course despite all storm warnings from the Piedmont sector.

The game is fraught, as the boys say, with some danger. Because the Bulldogs are to face the best line they have faced to date. And it may be able to do somedanger. Because the Bulldogs are to face the best line they have faced to date. And it may be able to do something to the Georgia attack which depends, as does any attack with gazelles in the backfield, on the line. This is true, of course, if there are elephants in the backfield. But more so with the gazelles. They need protection up to the line and cannot take much battering behind it without slowing up.

It requires about an hour of earnest conversation of the Pollyanna type to get Mr. Mehre to talking about this and that and nothing in particular.

THE NORTH CAROLINA ATTACK.

North Carolina will hardly offer an attack with more speed than that presented by the already-vanquished Tulane team.

Michigan, undisputed champion of the Big Ten a year ago, will rule a favorite over Cornell but will find the Ithacans, ably coached by "Gloomy Gil" Dobie, a handful. Pitt, likewise, will be the public choice over Nary in the east's one big-time struggle of the day. Tennessee, in the advance notices at least, has been regarded as the most formidable power within the Southeastern conference game. Purdue, on the face of its hard-earned victory over Ohio University, seems to rate no better than an even choice against Minnesota, but Southeastern conference game. than that presented by the already-vanquished Tulane team. Yet its attack is likely to be minus the fumbles and stumbles which marred Tulane's effort to advance the football.

And a football team which can hold that football is a lot more dangerous than one which squirts the ball here and there on the sward for the foes to fall on.

And furthermore the North Carolina pass attack will be superior to that of Tulane. And in my analysis of the Georgia team its chief weakness on defense is against passes. The secondary has a great deal of responsibility with a six-man line in front of it and must so concentrate on running plays that it has yet not absorbed enough experience to be on its toes and ready to meet either attack, afoot or by air.

INTERESTING GAMES.

Starting off with such games to night as those involving Haskell and Temple at Philadelphia, Clemson and George Washington at Washington and Detroit and Washington and Jefferson at Detroit, the schedule provides a host of other interesting pairings for towards. uperior to that of Tulane. And in my analysis of the Georgia

Georgia will likely catch an inspired football team and an inspired team is always difficult to beat even though its rival be a superior team as I think Georgia will be on Saturday.

Georgia should win because to date no team, with the exception of Tennessee, has shown the Southeastern conference

POP WARNER'S EFFUSION.

There is quite a lot of polite smiling going around football circles at a recent magazine article by Pop Warner, the onetime Stanford coach and now heading the coaching corps at

In this article Pop Warner deplored the extravagant practices of big-time football and deplored this and that which he regards as evils.

And the football people are wondering at Pop. Because he has always been one of the producers of extravaganzas at Pittsburgh and at Stanford. And has been signed by little Temple University, which wishes some big-time football, at a salary reported to be a modest \$20,000 per year for three months of coaching per year. Which, unless my mathematics is all wrong, means something a bit short of \$7,000 per month.

Now, of course, I have always been one of those people careless about funds and hardly ever know what I have in the bank but it seems to me that near \$7,000 per month is serious money.

I imagine that Pop Warner decided that big-time football was all wrong when his teams were shaken up so much on the coast. Because the coast teams learned how to make the double-wingback attack, which cannot often score against a sandlot team inside the 20-yard line, look quite bad.

It makes a difference in the point of view if the going is tough or easy.

And they are all laughing at Pop, whose viewpoint seems to have changed.

BULLDOG SQUAD WELL PREPARED AT CHAPEL HILL

Georgians May Uncork New Plays Against Tarheels.

By Ralph McGill.

EN ROUTE CHAPEL HILL WITH GEORGIA FOOTBALL TEAM, Oct. 13.—Harry Mehre has some new ammunition with which to load the guns should the going get too rugged on Saturday afternoon against the Tarheels at Kenan stadium.

dium.

The Georgia offense was given some new material for the 1933 season, and it has not been used on more than a half dozen plays this sea-

North Carolina State saw about four of them and Tulane saw a couple. But the new razzle-dazzle has yet to be sprung in all its ex-

nas yet to be sprung in all its expected strength.

Naturally Georgia would be greatly refieved to win without using it Saturday. But it was worth noticing that in practice today the Georgia squad was swinging through the new formations with great gusto and attention.

ARRIVE EARLY.

ARRIVE EARLY.

The Bulldogs will arrive in Raleigh, N. C., Saturday morning and immediately embark on a bus for Chapel Hill. There they will be housed at the field house, have lunch at the university dining room and then dress for the game.

Georgia can very easily kick this game away to North Carolina, figuratively speaking. Playing its normal game Georgia will win. But a loose game will let North Carolina win it.

The facts are that football has improved generally and there is not a

The facts are that football has improved generally and there is not a great deal of difference between them. The better teams need only to be slightly off form to be given a fine kicking around by one slightly less able. And that is why coaches have the jitters. The country jitters. They know that a lot depends on it. Football is just one chance at one team each year. And somehow the word gets around. If Salesman Jim Smith does not sell a bill of goods only a few people know it. But if Coach Mehre does not win the Carolina game the news will be in the papers. So, why not have the jitters.

BATCHELOR OUT.

Georgia goes north with Captain

Bill Croom, Henry Burnett and a number of good running and passing backs offer a real threat. It is not as effective as Georgia's attack but it may have its day.

Georgia will meet perhaps the best defensive team the team has faced this season. The Tarheel defense will certainly be more closely knit than was Tulane's.

It al lfigures as a Georgia victory. But there are no more poor football teams and anything can happen. But I don't think it will.

football teams and anything can happen. But I don't think it will.
Georgia will have the unique experience of playing in one game and watching another, all within the space of eight hours. The Georgians will watch Florida, on the Georgia schedule for November 4, in action against North Carolina State Saturday night

Giants' Star Catcher Says Terry Outwitted Joe Cronin.

By Jack Troy.

Manager Bill Terry's strategy in the opening game of the World Series probably was the stroke that started the Washington Senators on a downhill World Series grade, in the opinion of Gus Mancuso, 156pound catcher of the world champion New York Giants. Mancuso, caught every pitch of the series (except for a few foul tips), paused in LaGrange Thursday night en route to his home in Houston, Texas. Mancuso, traveling by automobile, passed through the outskirts of At-

When Carl Hubbell, the lanky Missouri "screw ball" expert, went out to the mound for the first inning the Washington batters took a position in front of the box, Mancuso explained. They did this in an attempt to hit the "screw ball" before it took that sudden dip.

Great Record at Stake at Durham; Tech Game Toss-Up.

By Dillon Graham,

Associated Press Sports Writer. Tennessee, unbeaten in three years, risks its record and its Dixie football championship hopes against Duke University today as three other Southeastern conference clubs tackle South-ern loop rivals and Auburn faces Georgia Tech in a major Southeast-ern duel.

Seeking to maintain the Southeast-Seeking to maintain the Southeastern's perfect state against Southern foes, Georgia meets North Carolina at Chapel Hill, Tulane engages Maryland at New Orleans and Florida goes against North Carolina State at Haleigh. The intersectional program brings together Vanderbilt and Ohio State at Columbus and Mississippi and Marquette at Milwaukee.

Milton Frank, Tennessee tackle, has an injured leg and likely will not play. Two reserve fullbacks, Lippe and Anderson, also are nursing hurts. Duke is in good condition.

An offensive battie is in prospect as Georgia and North Carolina meet. Carolina's success with passes against Vanderbilt last week leads to the belief the Tarheels will take bold chances against the Bulldogs. Georgia has paid more attention to attack than defense this season and thus far has been able to outscore its rivals.

After two defeats, Tulane will be thoroughly aroused and anxious for victory over Maryland. Florida, with two easy victories, hopes to add another over N. C. State, which beat the 'Gators last season and started them on a six-game losing streak.

TECH GAME TOSS-UP. The outcome of the Auburn-Tech game appeared a toss-up. Tech, after a fine start against Clemson, showed little offensive power when a touch-down was in sight against Kentucky. down was in sight against Kentucky. Auburn, the sensation of 1932, also was unimpressive in its early engagements. Auburn will throw perhaps the fastest set of backs in the south against Tech. The Engineers may rely heavily on Jack Phillips' passes. With Frank Moseley, a converted signal caller, in the fullback role, Alabama hopes to run smoothly against Mississippi State in the other Southeastern conference filt at Tuscaloosa.

er Southeastern conference filt at Tuscaloosa.

Mississippi believes it will make a good showing against Marquette but Vanderbilt coaches have expressed little hope for a victory over Ohio State following the injury to Rand Dixon, the Commodore backfield ace. Louisiana State expects real trouble from Centenary, the Shreveport team that beat them a year ago. However, Coach Biff Jones has a sturdy outfit and looks for a win. MONROE NRA PARADE OVER MILE IN LENGTH

Decorated Cars, Band, School Children, Troops, Etc., Move Through Town.

MONROE, Ga., Oct. 13. - The eatest demonstration this section of the state has seen for the national recovery administration occurred in Monroe today when business firms, teachers and school children staged a parade more than a mile in length.

Thus was school day at the Walton County Fair turned into a monster

County Fair turned into a monster manifestation of interest in the great recovery drive, in which Walton county people have shown the heartiest spirit of co-operation.

The parade was headed by Mayor D. M. Pollock, C. P. Carmichael, local NRA chairman, and Mrs. E. A. Caldwell, women's chairman, followed by the Walton guards and 40 gaily decorated cars carrying the insignia of the NRA and filled with cltizens and beautiful girls, while two dozen school buses and 4,000 marching school children and teachers brought up the rear.

Music was furnished by the band of

the Royal Palm shows and the streets were througed with people as the pa-rade moved through the business and residential sections of the city.

the Declaration of Independence and the constitution."
General Malone added that if properly administered the NRA would "mean the emancipation of the people of the United States."
The address was before the Columbus Rotary Club. The general suggested a memorial bridge across Upatol creek at Fort Benning in honor of infantrymen who have died in the service. The war department has appropriated \$30,000 for construction of the bridge, he said.

A chapel on the hill just inside the

tion of the bridge, he said.

A chapel on the hill just inside the reservation should be built, also, he said, in which the names of intantrymen who died in service would be kept.

MAN GIVES SELF UP AS GEORGIA FUGITIVE

GRIFFIN, Ga., Oct. 13.—(4)—
Cliff Butler, 35. of this city, has been sentenced to life imprisonment following conviction in Spalding county court on a charge of running over and fatally injuring Clarence Nelms, a young negro boy.
Witnesses testified that the boy was riding a bicycle near Experiment on August 6. He was on the north side of the road, witnesses said, when Butler, driving on the south side, crossed the road and ran off the pavement, striking him. Butler then continued on toward Griffin without stopping, according to the testimony.

The verdict was returned yesterday.

CAPTURED IN TEXAS

EXARKANA. Texas, Oct. 13.— Charley Frazier, escaped convict are protests from the wives of philan.

A good woman can never get the viewpoint of a philandering husband. One woman writes, "Why doesn't he love me? I have always been a faithful wife to him." And another young woman says, "I have been a good wife and mother and yet he is not satisfied with me." It is hard to deal wisely with any problem we don't understand. And it is impossible for a woman to understand why a man does not love her and remain faithful to her when she loves him and is faithful to him.

There are societies for the prevention of crime but crime continues as long as the sinful heart beats. The court must keep open and the jails must receive the sentenced ones. There are protests from the wives of philan.

Dormant consciences have a way of awakening as do dormant roots. You know what awakens the roots: The thawing of the frozen ground, the mellowing influence of the gentle raints and the permeating warmth of the sum. This awakening isn't done in the twinkling of an eye. It is a slow process. These same benign influences are to be found in a woman's love for a man. Unless his conscience be altogether dead such love must awaken it. that puts an end to any pleasant home life. She defeats her own purpose, her own ambition and destroys the only available pleasure in her marriage— companionship.

The thing that justifies a woman in continuing as the wife of an unfaithful man is the hope and the expectancy of his return to the fireside and to her. Then if she treats him in such a way as to drive him further afield she defeats the whole purpose of her plans. I should call the task the very hardest any woman could be called on to accomplish, and the man who imposes it among the most cowardly of men.

W. F. Williams To Celebrate Eightieth Birthdau

William F. Williams, prominent and beloved pioneer Atlantan, will observe his eightieth birthday Tuesday, October 17, at his home, 1069 Juniper street. His daughter, Miss Willie Fort Williams will entertain at open house on that date in honor of her father and she extends a cordial invitation to his friends to call during the afternoon and evening.

Mr. Williams was born in Atlanta in a house that formerly stood at the corner of Alabama and Pryor streets. His parents were the late Mr. and Mrs. James E. Williams, who moved to Atlanta from Tennessee in 1851 and who were prominently identified with the early growth of this city.

For the past six decades Mr. Williams, in a least of the past six decades Mr. Williams.

with the early growth of this city.

For the past six decades Mr. Williams has been a recognized leader in this city's civic, business and church circles. He has held the position as treasurer of St. Luke's Episcopal church for the past 20 years, having been active in the various organizations directed by this prominent church. He is president of the Pioneer School Boys of this city, the membership of which lists many of Atlanta's leading citizens. For 53 years Mr. Williams was prominently connected with the Alexander Hardware Company. ware Company.

Mr. Williams is the brother of Mrs. E. A. Bancker, Miss Lizzie Williams and Sam Williams, the latter two who still occupy the old Williams home which stands at the corner of Forrest avenue and Fort street and is numbered among Atlanta's land-marks.

marks.

A host of friends will call next
Tuesday to offer congratulations to
this outstanding citizen who has
reached his eightieth milestone.

Jewish Council PresentsMr. Hodgson

Atlanta section National Council of Jewish Women meets Monday, October 16 at 2:45 p. m. at the Temple House, Peachtree road. Mrs. I. F. Sterne, president, will preside.

Mrs. J. S. Brail, program chairman, and Mrs. Waldo Oettinger, music chairman, have arranged an interesting program. Hugh Hodgson, widely-known concert pianist, will appear in recital. He is an outstanding figure in musical circles not only as a master teacher and pianist but also as a composer. His activities as director of the fine arts department of the University of Georgia and as an organist and choir director of St. Luke's church in Atlanta have brought him widespread recognition.

the letter told about the three destitute homes into which the new, warm comforters had gone.

It might have been, too, that the good supper had left a pleasing impression on the group. At any rate, they were repeating their good work at Nancy's home. And Nancy was serving a buffet supper for the men and their wives. The men had bought the material for the comforters and the women had made them up. Tying the top and bottom together with interlining safely laid between went so much more quickly than any quilting could have done. Then, too, the interlining could be thicker and warmer when stitchery was not used, but yarn tying instead.

She had a tureen of hot cream of tomato soup. With this there were small rolled sandwiches spread with creamed butter.

Her main course was a hot vege-table loaf. There was a pear salad with cheese as an accompaniment and baked caramel custard served with sugar cookies.

For the loaf she put one-half cup each of cooked carrots, parsnips, peas and onions through a sieve. To this she added salt, mushroom powder, minced parsley. She added two beaten eggs and enough freshly crumbled day old bread to absorb moisture and give a loaf that held its shape after a half hour's baking of the loaf.

Trip to Tallulah.

The last round-up of members of the Young Matrons' Circle of Tallu-lah Falls school for a pilgrimage to the school for this year is scheduled for Monday. Led by the library com-mittee, with Mrs. Dan M. Byrd as chairman, a number plan to take the trip to Tallulah.

At the beginning of her term of

office, Mrs. William Akers, president, gave as one of her objectives a visit to Tallulah during the year by every member of the circle. This is the last opportunity members will have to go before the annual fall meeting, scheduled for the Druid Hills Golf Club at 10:30 o'clock Wednesday, October 25, and Mrs. Akers is anxious that each one who has not already done so to make the trip this time.

Mrs. Byrd and her committee will take over 200 books to add to the school library. Mrs. Kenyon Zahner and the garden committee will also carry plants, shrubs and iris.

Lillian Mae Patterns

THE IMPORTANT BOLERO
EFFECT.
Pattern 1634.

Smart women looking for that new line in vogue this season will know the advantage of a bolero-effect frock. It really does slenderize the hips so much, and softens the curve of the bustline. This model adopts a flattering tie for neckline-detail, smooth sleeves, and offers a delightful medium for the popular new fabrics. Velvet, satin or ribbed silks are good in dark rich colors.

Pattern 1634 is available in sizes 36, 38, 40, 42 and 44. Size 36 takes 3 1-4 yards 39-inch fabric and 7-8 yard contrasting. Illustrated step-by-step sewing instructions included.

Send fifteen cents (15c) in coins or stamps (coins preferred) for this Lillian Mae pattern. Write plainly name, address and style number. Be sure to state size.

By JOHN L. COOLEY. NEW YORK, Oct. 13 .- (AP)-Financial markets today had their first opportunity to express reactions to the government's fourth Liberty loan refunding offer and whatever implicaretuning other and whatever implica-tions it may have as to monetary plans or policy. That expression, it developed, was a slump in speculative values, a strengthening in high grade bonds and a sharp advance by the dollar, trends that conformed closely to the accepted pattern for markets the accepted pattern for markets

ary props.

Stocks and commodities weakened. The former behaved indecisively until afternoon when a pronounced downturn developed coincident with a 5-cent break in wheat, proportionate declines in other grains and a steady climb by the dollar. Share trading was of moderate proportions—1,264,-405 shares—and selling took the greats toll among alcohols, metals and est toll among alcohols, metals and a few specialties which had been spec-ulative favorites for several months. Losses of many leaders held in a one

to two point range; some dropped as much as half a dozen points, and several were off 3 or thereabouts. United States Smelting flopped the better part of 7 points. Allied Chemibetter part of 7 points. Allied Chemical, strong just before the holiday, was down 6. New York Central, United States Industrial Alcohol, Celanese, Industrial Rayon, Cerro De Pasco and American Smelting yielded more than 3; United States Steel, Sears-Roebuck, General Motors, Consolidated Gas, Standard Oil of New Jorges, General Electric, Pennsyl Jersey, General Electric, Pennsylvania, Southern Pacific, Du Pont, Kennecott, Montgomery Ward and Chesapeake & Ohio were off 1 to nearly 3. American Telephone was steady until shortly before the close when

it eased nearly a point.

Government bonds were steady to firm and gilt-edge corporate issues followed their example. The dollar's gold value improved to around 69

cents.
Carloading figures for last week were off moderately from the preceding week, but maintained their advantage over a year ago when traffic was approaching its 1932 peak. Dun & Bradstreet said the pickup in general trade movements in the past few days had been "the most impressive" of the autumn season and that the first full week of seasonal weather had brought widespread reports of sharp increases in retail distribution, "Particularly pronounced in rural communities."

communities."
The federal reserve system reported its familiar \$35,000,000 addition to the government security portfolio, again refuting the prophets who had again refuting the prophets who had foreseen more aggressive action in the open market campaign. Total reserve bank credit rose \$28,000,000 and is now \$243,000,000 above a year ago. Currency circulation had another seasonal rise, this time of \$21,-

By BERNARD S. O'HARA. NEW YORK, Oct. 13.-(49)-The curb market today yielded ground under an active selling flurry around the beginning of the last hour. Closing prices disclosed numerous concessions of fractions to 2 points or so. Alcohols and metals proved most vulnerable. Newmont Mining dropped

more than 3 while losses of about 2 were shown in Hiram Walker and New Jersey Zinc. Lake Shores Mines, National Distillers new and Distillers Corporation Seagrams yielded a point or more each.

Utilities were resistant for a time but later eased fractions to a point or so. Electric Bond & Share suf-fered a setback of 1 1-2. Oils also gave ground grudgingly; excepting Humble, which lost 2, losses were minor. Celluloid and Celanese issues reacted after their recent climb. Aluminum Company of America lost 3 1-2, Pepperell, Dow Chemical and Axton Fisher were isolated firm spots. Transfers approximated 258,000 shares compared with 206,000 Wednesday.

Trade Review Notes Impressive Pickup

NEW YORK, Oct. 13.—(P)—Dun & Bradstreet said today that the "most impressive pickup of the fall season occurred this week in general trade movements."

"The first full week of seasonable weather," stated the agency's review, "brought reports from all parts of the country of sharp increases in retail distribution, particularly pronounced in rural communities, with the strong drive of the 'buy now' campaign proving a powerful stimulus to the spread of the demand for merchandise.

"The extent of the business up-trend since June, accompanied by the steady rise of employment and increase in pay rolls, has developed a new public psychology, which is now one of spending rather than hoard-ing."

Brokers' Views

FENNER, BEANE & UNGERLEIDER—Some further expression of the public's reaction to the sell-off in stocks will probably be witnessed in Saturday's short session, but longer term considerations are believed to be sufficiently favorable to warrant a constructive attitude toward stocks.

DOBBS & CO.—It remains to be seen whether the action of commodities has sufficiently demoralized the stock market so that a definite downtrend will set in. COURTS & CO.—One thing seems pretty certain and that is, the market is thoroughly liquidated.

BEER & CO.—Considering the extent of the commodity break Friday, the action of stocks can be considered fairly constructive.

LIVINGSTON & CO.—We expect that

LIVINGSTON & CO.—We expect that resistance to bad news which has been demonstrated over a period of many weeks will continue to be shown.

COTTON OPINIONS FENNER, BEANE & UNGERLEIDER—
We are inclined to the buying side as offering the best opportunities for profits.
HUBBARD BROS. & CO. TO DOBBS & CO.—The spinning trade are holding off, as they see no particular reason to be uneasy about obtaining their supplies during the next few months, in face of the large estimate made by the government on October 8.

LIVINGSTON & CO.—It is our opinion
that the immediate benefit of the loan
plan will more than outweigh any disadvantage that the farmer thinks he will
experience seven months hence and that
the sign-up for crop reduction will be
coneral.

GRAIN OPINIONS. FENNER, BEANE & UNGERLEIDER— We feel that later in the year present prices of wheat will prove to have been too low.

LIVINGSTON & CO.—We consider all grains are entitled to sell at materially higher prices when confidence is again restored.

NEW YORK, Oct. 13.—(A)—Cotton was lower today under southern selling and liquidation, which appeared to be influenced by the weakness of other markets. December contracts sold off to 9.16, or 24 points net lower, and closed at 9:18, with the general market closing easy at net declines of 21 to 28 points.

The opening was barely steady at an advance of 2 points to a decline of 2 points. Some buying was reported on the fairly steady showing of Liverpool, but it was supplied by southern selling, and after the call scattered selling and liquidation became more active following the weakness in grain and stocks. A few stop orders were uncovered as prices broke through the low levels, and while trade buying continued, it appeared to be almost entirely on limits or on scale-down orders. The lowest prices of the day were reached in the late trading with October selling at 9.08 and May at 9.54, and closing quotations were at

BOND OFFERINGS ADVANCE SHARPLY

Daily Bond Averages.

By VICTOR EUBANK.

NEW YORK, Oct. 13.—(A)—All classes of domestic bonds responded cheerfully today to the government's proposal to refund some \$2,000,000,000,000 of the Liberty loan 4th 41-4s on a lower interest basis.

Prime maturities, as well as those of the secondary grades, were in active demand with gains of 1 to 2 or more points being scattered throughout the list. Both investors and traders interpreted the administration's

out the list. Both investors and trad-ers interpreted the administration's conversion plan as a blow at cur-rency inflation and, consequently, a stimulus to fixed income securities which would have suffered most from

which would have suffered most from drastic dollar depreciation.
United States government loans were fairly active and firm. The uncalled Liberty 4th 41-4s advanced 11-32d of a point to 103.22 and the called bonds closed at 101.31 after being up as high as 102.4. The quotation on the called portion of the issue indicated a premium on the new 41-4-31-4 per cent bonds when trading starts on a "when-issued" basis. Pasis.

Although some of the more specula-

Although some of the more speculative corporation liens were inclined to ease, the majority maintained a steady to firm position. Among the more active railroad gainers were some loans of Baltimore & Ohio, Chesapeake & Ohio, Chicago & Great Western, Erie, Great Northern, Illinois Central, Louisville & Nashville, Michigan Central, New York Central, Northern Pacific, * Pennsylvania, Southern Pacific and Western Maryland.

Southern Facilic and Western Maryland.

The better utilities and industrials included bonds of American Metal, American Smelting, American Telephone, Bethlehem Steel, Certain-teed, Inland Steel, International Paper, New Orleans Public Service, North American, Portland General Electric, Standard Oil of New Jersey, Utah Light and Western Union.

French government obligations slumped 27-8 to 51-4 points and bonds of Dutch East Indies and Switzerland fell 1 to 3 or more as the dollar advanced sharply against currencies of the gold standard countries. Some Japanese and Brazilian

tries. Some Japanese and Brazilian loans were heavy. The Australians and Germans were firm. Sales totaled \$13,046,000, par value,

and the average for 60 domestic cor-porate issues advanced half a point.

CHICAGO, Oct. 13.—(P)—Overburdened with stop-loss selling for
speculators who had bought at 10 to
15 cents above current quotations,
wheat collapsed 5 cents a bushel to-

day.
The United States government The United States government bond-refunding program, some trade experts said, indicated a policy of sound money, and this led to hurried retreat of those who had bought on currency inflation prospects. A different reason given by other grain speculators was that of general lack of confidence on the part of new buyers, and it was added that with a change in public psychology the response of grains would be instantaneous.

Lowest prices since June 19 were reached today in wheat. At no time did the market display any vigorous power to rally.

Corn was reactively steady, owing to reports of progress made in a movement to impose an embargo on imports of black-strap molasses. It was asserted such an embargo would provide an American market for approximately 75,000,000 bushels of corn. Oats declined the maximum with wheat.

WASHINGTON, Oct. 13.—(A?)—
The daily average volume of federal reserve bank credit outstanding during the week ending October 11, was \$2.452,000,000, an increase of \$26,000,000 compared with the preceding week and of \$218,000,000 compared with the corresponding week of last year.

The federal reserve board reported today that on October 11 total reserve bank credit amounted to \$2,-477,000,000 an increase of \$28,000,000 for the week. This corresponds with the increases of \$44,000,000 in member bank reserve balances and \$21,000,000 in money in circulation, offset in part by an increase of \$32,000,000 in treasury currency adjusted, and a decrease of \$5,000,000 in unexpended capital funds, non-member deposits, etc. The federal reserve board reported

Market Outlook

MAX BUCKINGHAM

NEW YORK, Oct. 13.—(UP)—Fickleness of the trading mind was amply demonstrated wherever market operators gathered tonight. Optimism suddenly had given way to dispirited

perplexity.

These operators had spent the Columbus Day holiday trying to interpret, marketwise, the treasury Liberty bond refunding plan. They had both bullish and bearish factors between them. They decided on immediate both bullish and bearish factors be-fore them. They decided on immediate bearishness, believing the proposal in-dicated a sound money policy and therefore a temporary dismissal of in-flation prospects, and sent the mar-ket down.

The temporary fund, which covers the period from January 1, 1934, to July 1, 1934, carries 100 per cent insurance on bank deposits of not more than \$2,500. The permanent insurance fund, which begins July 1, 1934, extends 100 per cent insurance protection to all deposits of \$10,000 or less; 75 per cent protection on deposits from \$10,000 to \$50,000, and 50 per cent protection to deposits over \$50,000.

All national banks and all members All national banks and all members of the federal reserve system are required to participate in the insurance fund and provide protection for their depositors. State banks may also participate, but are not compelled to do so.

All banks applying for membership in the fund will be examined after making application and all examinations and final approval must be completed before January 1, 1934. If applications are delayed, examinations

pleted before January 1, 1934. If applications are delayed, examinations may not be completed before the time limit has expired, thus barring the bank from participation in the insurance fund.

There are about 200 state banks in Georgia not members of the federal reserve system, in addition to the national and member banks.

He knew that South, regardless of his diamond holding, could not refuse this trick with his club suit as yet unestablished, and he knew that South must surely have a strong club suit to justify his bidding, even not vulnerable, Mr. Liston reasoned that his partner's only possible card of entry must be the diamond queen, and unless he held the diamond queen, the hand could not be set anyway. Declarer played as expected, winning with the diamond ace set anyway. Declarer played as expected, winning with the diamond ace so as to take an immediate round of clubs. When he led the club 7 from dummy, Mr. Liston played the ace immediately and then the ace and 3 of spades. Now declarer was helpless since his only possible ninth trick was in the diamond suit, and to establish that trick he had to give West the lead and allow the last spade to be cashed for East and West's fifth trick. Even a super-expert could not be censured for reading the East hand as containing the king-queen-9 of dia-

DECREASE IN WEEK WASHINGTON, Oct. 13.—(4?)— The American Railway Association announced today that loadings of reve-nue freight for the week ended Oc-tober 7, were 654,428 cars, a decrease of 7,399 below the preceding week, but an increase of 29,339 over the cor-responding week last year.

SUGAR.

SUGAR.

NEW YORK. Oct. 13.—Raw sugar was quiet today with spot prices unchanged at 3.37. There were no sales.

After opening slightly higher fatures weakened under increased liquidation and hedge selling, promoted by inactivity in the spot market and weakeness of other commodities. Final prices were 5 to 6 points net lower. Sales amounted to 29.—600 tons.

NEW YORK, Oct. 13.—Coffee was lower today on selling by commission houses and Brazil. Locals and trade interests bought on the scale down. Santos opened 2 higher to 3 lower and closed 15 to 27 lower. Sales 13,000. No. 7 opened 4 to 5 lower and closed 15 to 25 lower. Sales 13,000. Closing quotations: Santos, December 7.80; March 7.93; May 7.96; July 8.00; September 5.17; No. 7 December 5.41; March 5.54; May 5.65; July 5.70; September 5.73.

Slowly the man ascended. They could hear his shuffling progress coming nearer and nearer to the top. He did not climb as the ape-like priests of Opar were wont to climb. Tarzan thought per-haps he was carrying a cumbersome or heavy load

man saw that he was an old man, which accounted for his lack of agility, and then powerful fingers closed about the throat of the unsuspecting Oparian and he was lifted bodily out of the shaft.

WASHINGTON. Oct. 13.—(R)—
The White House disclosed today that the treasury and other departments working on liquor tax legislation had completed but were holding secret a tentative schedule of rates to be proposed to congress in event of repeal. It was said on behalf of President Roosevelt that a major problem seen by the administration in connection with repeal was what to do in the period between the possible ratification by the 36th state and the time when congress enacted legislation.

Another question, it was said, centered upon what would be done in the District of Columbia should the amendment be repealed.

Some constitutional lawyers have held that the Volstead act would remain in force in the national capital after repeal, but this view has been contested. 163 RICHMOND ST.-Near Chevrolet plant no cash, no loan. AKRON, Ohio, Oct. 13.—(A)—A

new, pale yellow oil 9,200 times
more potent than ordinary cod liver
oil, was described to the OhioMichigan section of the American
Chemical Society here today.

The oil is almost pure Vitamin
A, said its maker, Professor Harry
N. Holmes, of Oherlin University.
It is prepared from halibut livers
and represents America's stake in
an international scientific race to
be first with isolation of Vitamin
A, the disease-resistance builder.

At the University of Zurich, Dr.
Karrer has produced a similar oil
10,000 times as powerful as cod
liver oil; while three Englishmen
have reached Vitamin A concentrations in similar oils 6,500 times
and 7,800 times stronger than the
fish oil.

Immunity Advocated For News Information

For News Information
CHICAGO, Oct. 13.—(P)—Newspapermen should be allowed immunity from divulging news sources and violating confidences, Professor F. S. Siebert, of the University of Illinois, said today at the convention of Sigma Delta Chi, professional journalism fraternity.

He pointed out that only Maryland and New Jersey now recognize the right of the press to protect news sources. Professor Siebert, a teacher of journalism and member of the bar, said that "inviolability of confidences is part of the chics of journalism. If it is good ethics, it is good law.

"It is in the public interest that a free flow of news be maintained, since the press constitutes a check on governmental offices such as no constitution has ever been able to provide. It is necessary for all newspapermen to protect news sources which are important to them if they are to serve the public and quartely. . . ."
